# EMPLOYEE SPOTLIGHT

## Meet Joe

Joe has been an integral part of the Crown Diesel team since 2002 and has seen the company undergo significant changes. When he first started, the team used handwritten invoices and relied on Nextel 2-way radios to communicate. However, with the introduction of modern technology, Joe has witnessed a significant shift in the way they operate, making their job easier and more efficient.

He appreciates the fact that Crown Diesel has adapted to the latest technological advancements, making it easier for the team to process jobs faster and invoice clients in a much more streamlined and legible manner.

Joe loves tinkering with fast cars and playing video games when not working. Interestingly, his first job was reupholstering furniture and building dollhouses. He also loves to travel and wishes to explore the world someday.

Joe's favorite thing about working at Crown Diesel is the people. He appreciates the support he gets from his colleagues and the positive atmosphere that they have created at work. Joe firmly believes that the team's willingness to help one another sets Crown Diesel apart from other companies.

We are proud to have Joe on our team at Crown Diesel, and we thank him for his many years of dedicated service. His unwavering commitment to quality work and excellent customer service are truly appreciated.

## AIR CONDITIONER PM

AIR CONDITIONING IS AMONG THE BEST WAYS TO  
STAY ON TOP OF PREVENTIVE MAINTENANCE
